## **Social transformation and education costs (Chinese Edition)** lou li zhi

This book mainly discusses the cost problem of the social transformation of Chinas educational reform. The education cost is the inevitable result of the choice of the educational value, and the education cost during the social transformation has become more evident. From the historical and practical perspectives, the book interprets the dominant value during the social transformation of Chinas education in discourse of the relation between social values and personal values of education, and the education cost should be shouldered in choosing this dominant value, and carries out discussion on relevant practical issues in the social transformation of Chinas education, such as: education cost and education equality, aims of education, educational policy-making, teaching methods, teacher-student relationship, academic burden, curriculum reform, and so on.
