Advances in Breast Cancer Detection (Recent Results in Cancer Research)

Advances in Breast Cancer Detection (Recent Results in Cancer Research)

The Fourth International Copenhagen Symposium on Detection of Breast Cancer, which took place in Copenhagen August 1988, made it possible once again for scientists from all over the world to come together to present the latest advances in the fight against breast cancer. This book forms a synthesis of important contributions, with special reference to follow-up screening trials, stereotactic X-ray guided fine-needle aspiration biopsy procedures, and new and important contributions to our knowledge concerning nonpalpable breast tumors. It is our fervent hope that the reader of this book will be encouraged to join in the struggle against breast cancer, especially screening programs, in order to detect the disease as early as possible, bearing in mind that breast cancer, in spite of recent advances, still is a dreadful strain on women throughout the world. S. Brunner B. Langfeldt Contents E. L. Kitts, Jr., J. Beutel, R. S. Holland, and B. Blank Relative Doses in Mammography: The Future Development of Film/Screen Mammography Systems 1 R. McLelland . Earlier Detection of Breast Cancer: An Overview 10 J. Leveque, e. O. Lorino, and J. J. Ferrara Inflammatory Disease of the Breast. . . . 18 R. McLelland Stellate Lesions of the Breast 24 R. McLelland Screening for Breast Cancer: Opportunities, Status and Challenges 29 S. A. Feig Follow-up Studies of the Health Insurance Plan Study and the Breast Cancer Detection Demonstration Project Screening Trials in the USA. 39 R.
