Tier Zero

Henry Brown

Tier Zero Henry Brown

Tommy Scarred Wolf thought he had smelled the powder for the last time ten years ago. Then somebody messed with his family. With no government willing or able to help out, it's up to Tommy and his detective brother, Vince, to find Vince's kidnapped daughter halfway around the world. But rescuing her is going to take funding, firepower, and friends. Fortunately, Tommy knows some shooters just crazy enough to tag along--including survivors from his last suicide mission: retired SEAL team commander Rocco Cavarra; former Delta Force operator Jake McCallum; and the unflappable sniper Leon Campbell. On the ocean and in jungles both natural and urban, Tommy Scarred Wolf and his warrior brothers will face human traffickers, modernday pirates, a freak typhoon, and an ultra-secret black ops team so dangerous even the CIA can't touch them. There's something far more sinister than just "white slavery" going on here, and it's about to ram these men through a crucible which may never end...except in death.

Tier Zero is the sequel to *Hell and Gone*, my first adventure novel. Times have changed in between the two novels and there's a lot less middlemen between me and the readers, so I have a better picture of what fans of the genre want in a book.

I ramped up the action a bit. And knowing how knowledgeable the readers are these days about the weapons, equipment, tactics and jargon, I didn't spend nearly as much time explaining or expositing. In the Kindle version, I inserted hyperlinks for the occasional reader new to the genre who wants more information. Ain't technology da bomm?

For those who haven't read in this genre for a while, I hope you'll give me a chance to show you that military fiction doesn't have to be sophomoric, and plausibility doesn't necessarily mean boring.

Thanks a lot for taking a look!
