Handbook of Naturally Occurring Compounds V2: Terpenes v. 2 T.K. Devon

Handbook of Naturally Occurring Compounds, Volume II: Terpenes is a handbook of naturally occurring compounds to which structures have been assigned, with particular reference to terpenes. Each structure is stored in the handbook with its name, molecular formula, molecular weight, optical rotation, melting point, literature reference, and classification number.

Comprised of 10 chapters, this volume begins with an overview of terpenes and their classification schemes, followed by terpenoid classes and their structural/biogenetic categories as well as skeletons: monoterpenes, sesquiterpenes, diterpenes, sesterterpenes, triterpenes, steroids, carotenoids, and polyprenoids. Miscellaneous compounds of terpenoid origin are also considered, including the ionones and fraxinellone. This final category for miscellaneous compounds of terpenoid origin arises through the somewhat frequent occurrence of oxidative degradation in terpenoid biosynthesis. In general these compounds have degraded structures such that there exists some ambiguity as to their precise biosynthetic precursors. Each individual compound possesses a compound sequence number which, in combination with the Classification Code Number, supplies a unique address for that compound.

This book should be a valuable resource for chemists as well as students and researchers of chemistry.

From reader reviews:

Kevin Santiago:

Book is written, printed, or created for everything. You can learn everything you want by a e-book. Book has a different type. As you may know that book is important factor to bring us around the world. Adjacent to that you can your reading talent was fluently. A publication Handbook of Naturally Occurring Compounds V2: Terpenes v. 2 will make you to possibly be smarter. You can feel much more confidence if you can know about anything. But some of you think in which open or reading the book make you bored. It is not necessarily make you fun. Why they are often thought like that? Have you in search of best book or suitable book with you?

Matthew Segal:

Hey guys, do you really wants to finds a new book to study? May be the book with the name Handbook of Naturally Occurring Compounds V2: Terpenes v. 2 suitable to you? The particular book was written by well known writer in this era. The actual book untitled Handbook of Naturally Occurring Compounds V2: Terpenes v. 2 is the main of several books this everyone read now. This book was inspired many men and women in the world. When you read this e-book you will enter the new dimension that you ever know prior to. The author explained their concept in the simple way, and so all of people can easily to know the core of this guide. This book will give you a lot of information about this world now. In order to see the represented of the world with this book.

Hoyt Moore:

Often the book Handbook of Naturally Occurring Compounds V2: Terpenes v. 2 will bring you to the new experience of reading some sort of book. The author style to describe the idea is very unique. If you try to find new book you just read, this book very suited to you. The book Handbook of Naturally Occurring Compounds V2: Terpenes v. 2 is much recommended to you to see. You can also get the e-book through the official web site, so you can easier to read the book.

Stephen Redmond:

Some people said that they feel bored when they reading a book. They are directly felt the idea when they get a half regions of the book. You can choose typically the book Handbook of Naturally Occurring Compounds V2: Terpenes v. 2 to make your own personal reading is interesting. Your own personal skill of reading proficiency is developing when you just like reading. Try to choose straightforward book to make you enjoy to study it and mingle the opinion about book and studying especially. It is to be initial opinion for you to like to open a book and read it. Beside that the reserve Handbook of Naturally Occurring Compounds V2: Terpenes v. 2 can to be your friend when you're experience alone and confuse in doing what must you're doing of their time.
