**The Productive Body** Didier Deleule, François Guéry

*The Productive Body* asks how the human body and its labor have been expropriated and re-engineered through successive stages of capitalism; and how capitalism's transformation of the body is related to the rise of scientific psychology and social science disciplines complicit with modern regimes of control. In *Discipline and Punish*, Foucault cited Guéry and Deleule in order to link Marx's diagnosis of capitalism with his own critique of power/knowledge. *The Productive Body* brings together Marxism and theories of the body-machine for the goal of political revolution.
