Clinical Trial Data Analysis Using R (Chapman & Hall/CRC Biostatistics Series) Ding-Geng (Din) Chen, Karl E. Peace

Too often in biostatistical research and clinical trials, a knowledge gap exists between developed statistical methods and the applications of these methods. Filling this gap, **Clinical Trial Data Analysis Using R** provides a thorough presentation of biostatistical analyses of clinical trial data and shows step by step how to implement the statistical methods using R. The book's practical, detailed approach draws on the authors' 30 years of real-world experience in biostatistical research and clinical development.

Each chapter presents examples of clinical trials based on the authors' actual experiences in clinical drug development. Various biostatistical methods for analyzing the data are then identified. The authors develop analysis code step by step using appropriate R packages and functions. This approach enables readers to gain an understanding of the analysis methods and R implementation so that they can use R to analyze their own clinical trial data.

With step-by-step illustrations of R implementations, this book shows how to easily use R to simulate and analyze data from a clinical trial. It describes numerous up-to-date statistical methods and offers sound guidance on the processes involved in clinical trials.

From reader reviews:

John Beaulieu:

This Clinical Trial Data Analysis Using R (Chapman & Hall/CRC Biostatistics Series) book is simply not ordinary book, you have after that it the world is in your hands. The benefit you have by reading this book will be information inside this guide incredible fresh, you will get facts which is getting deeper a person read a lot of information you will get. This particular Clinical Trial Data Analysis Using R (Chapman & Hall/CRC Biostatistics Series) without we understand teach the one who examining it become critical in thinking and analyzing. Don't become worry Clinical Trial Data Analysis Using R (Chapman & Hall/CRC Biostatistics Series) can bring any time you are and not make your handbag space or bookshelves' grow to be full because you can have it inside your lovely laptop even telephone. This Clinical Trial Data Analysis Using R (Chapman & Hall/CRC Biostatistics Series) having great arrangement in word and layout, so you will not really feel uninterested in reading.

Coleen Faircloth:

This book untitled Clinical Trial Data Analysis Using R (Chapman & Hall/CRC Biostatistics Series) to be one of several books that best seller in this year, that is because when you read this book you can get a lot of benefit upon it. You will easily to buy this specific book in the book shop or you can order it by means of online. The publisher of the book sells the e-book too. It makes you more easily to read this book, since you can read this book in your Cell phone. So there is no reason for your requirements to past this book from your list.

Fernande Hairston:

Typically the book Clinical Trial Data Analysis Using R (Chapman & Hall/CRC Biostatistics Series) has a lot details on it. So when you read this book you can get a lot of gain. The book was written by the very famous author. Tom makes some research prior to write this book. This kind of book very easy to read you can obtain the point easily after looking over this book.

Renee Chagnon:

With this era which is the greater particular person or who has ability in doing something more are more treasured than other. Do you want to become among it? It is just simple approach to have that. What you must do is just spending your time little but quite enough to get a look at some books. One of the books in the top list in your reading list will be Clinical Trial Data Analysis Using R (Chapman & Hall/CRC Biostatistics Series). This book that is certainly qualified as The Hungry Mountains can get you closer in turning out to be precious person. By looking way up and review this e-book you can get many advantages.
