Adaptive Design Methods in Clinical Trials, Second Edition (Chapman & Hall/CRC Biostatistics Series) Shein-Chung Chow, Mark Chang

With new statistical and scientific issues arising in adaptive clinical trial design, including the U.S. FDA's recent draft guidance, a new edition of one of the first books on the topic is needed. **Adaptive Design Methods in Clinical Trials, Second Edition** reflects recent developments and regulatory positions on the use of adaptive designs in clinical trials. It unifies the vast and continuously growing literature and research activities on regulatory requirements, scientific and practical issues, and statistical methodology.

New to the Second Edition

Along with revisions throughout the text, this edition significantly updates the chapters on protocol amendment and clinical trial simulation to incorporate the latest changes. It also includes five entirely new chapters on two-stage adaptive design, biomarker adaptive trials, target clinical trials, sample size and power estimation, and regulatory perspectives.

Following in the tradition of its acclaimed predecessor, this second edition continues to offer an up-to-date resource for clinical scientists and researchers in academia, regulatory agencies, and the pharmaceutical industry. Written in an intuitive style at a basic mathematical and statistical level, the book maintains its practical approach with an emphasis on concepts via numerous examples and illustrations.

From reader reviews:

Kori Pierson:

This Adaptive Design Methods in Clinical Trials, Second Edition (Chapman & Hall/CRC Biostatistics Series) are reliable for you who want to certainly be a successful person, why. The main reason of this Adaptive Design Methods in Clinical Trials, Second Edition (Chapman & Hall/CRC Biostatistics Series) can be among the great books you must have is definitely giving you more than just simple studying food but feed you with information that possibly will shock your before knowledge. This book is usually handy, you can bring it just about everywhere and whenever your conditions in the e-book and printed versions. Beside that this Adaptive Design Methods in Clinical Trials, Second Edition (Chapman & Hall/CRC Biostatistics Series) giving you an enormous of experience for example rich vocabulary, giving you demo of critical thinking that we realize it useful in your day pastime. So , let's have it and enjoy reading.

Jill Williams:

This book untitled Adaptive Design Methods in Clinical Trials, Second Edition (Chapman & Hall/CRC Biostatistics Series) to be one of several books that best seller in this year, here is because when you read this publication you can get a lot of benefit upon it. You will easily to buy this specific book in the book retail store or you can order it via online. The publisher in this book sells the e-book too. It makes you more readily to read this book, because you can read this book in your Smartphone. So there is no reason for your requirements to past this book from your list.

Frances Sitz:

A lot of people always spent their very own free time to vacation or go to the outside with them loved ones or their friend. Did you know? Many a lot of people spent many people free time just watching TV, or even playing video games all day long. If you want to try to find a new activity honestly, that is look different you can read the book. It is really fun for you personally. If you enjoy the book which you read you can spent all day long to reading a book. The book Adaptive Design Methods in Clinical Trials, Second Edition (Chapman & Hall/CRC Biostatistics Series) it doesn't matter what good to read. There are a lot of those who recommended this book. They were enjoying reading this book. When you did not have enough space to deliver this book you can buy the e-book. You can m0ore quickly to read this book from a smart phone. The price is not too costly but this book offers high quality.

Mitchell Wilder:

As a student exactly feel bored to be able to reading. If their teacher questioned them to go to the library or make summary for some guide, they are complained. Just little students that has reading's spirit or real their interest. They just do what the teacher want, like asked to the library. They go to at this time there but nothing reading significantly. Any students feel that looking at is not important, boring as well as can't see colorful pics on there. Yeah, it is being complicated. Book is very important for yourself. As we know that

on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this Adaptive Design Methods in Clinical Trials, Second Edition (Chapman & Hall/CRC Biostatistics Series) can make you truly feel more interested to read.
