## **Life Sciences in the Twentieth Century: Biographical Portraits (The Scribner Science Reference Series, Vol. 2)** Evert Mendelsohn

This new series was specially written and designed for students to support science, history and social studies research. Each volume contains about 90 profiles of scientists throughout history and from all parts of the world. Sidebar stories, timelines, illustrations, and marginal definitions illuminate the text and each volume concludes with a comprehensive index. This continuing series will introduce 2 volumes each year covering scientists, events and issues.
