## **Closer Together, Further Apart: The Effect of Technology and the Internet on Parenting, Work, and Relationships** Robert Weiss, Jennifer P. Schneider

**Closer Together, Further Apart** offers current unique insight into the cultural shifts brought about by digital technology and the Internet. It considers how these new connections are impacting not only society as a whole, but more specifically communication in relationships and across generations.

Digital technology has in less than a single generation, dramatically and permanently altered the ways in which humans connect and communicate with each other. Conversations and information transfers that once either weren't possible or took days to complete now occur in an instant. Technological advances are profoundly affecting humankind, forcing us to change on multiple levels.

As with all forms of human/social/technological change, these advances will be good for some and bad for others. Those who learn to effectively absorb information and use new technologies in healthy ways will flourish, and those who don't may feel increasingly disconnected from our technology driven world.

**Robert Weiss, MSW**, is a therapist, international speaker, author, and a blogger on PsychCentral.com, where he writes regularly on the topic of sex and intimacy in the digital age. He was featured in LA Weekly 2013 People issue as one of LA's most fascinating people. He currently serves as Senior Vice-President of Clinical Development for Elements Behavioral Health.

**Jennifer P. Schneider, MD, PhD**, is a physician, international speaker, and the author of nine books and numerous journal articles.
