Robotics: A Very Short Introduction (Very Short Introductions) Alan Winfield

Robotics is a key technology in the modern world. Robots are a well-established part of manufacturing and warehouse automation, assembling cars or washing machines, and, for example, moving goods to and from storage racks for Internet mail order. More recently robots have taken their first steps into homes and hospitals, and seen spectacular success in planetary exploration. Yet, despite these successes, robots have failed to live up to the predictions of the 1950s and 60s, when it was widely thought - by scientists and engineers as well as the public - that by turn of the 21st century we would have intelligent robots as butlers, companions, or co-workers.

This Very Short Introduction explains how it is that robotics can be both a success story and a disappointment, how robots can be both ordinary and remarkable, and looks at their important developments in science and their applications to everyday life.

ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

From reader reviews:

Eva Solares:

Nowadays reading books become more than want or need but also work as a life style. This reading habit give you lot of advantages. The benefits you got of course the knowledge even the information inside the book that will improve your knowledge and information. The info you get based on what kind of e-book you read, if you want attract knowledge just go with training books but if you want truly feel happy read one using theme for entertaining including comic or novel. Typically the Robotics: A Very Short Introduction (Very Short Introductions) is kind of publication which is giving the reader unstable experience.

Linda Harris:

Are you kind of stressful person, only have 10 as well as 15 minute in your day to upgrading your mind talent or thinking skill actually analytical thinking? Then you are experiencing problem with the book as compared to can satisfy your limited time to read it because this all time you only find publication that need more time to be go through. Robotics: A Very Short Introduction (Very Short Introductions) can be your answer because it can be read by a person who have those short time problems.

Rebecca Goza:

Do you like reading a book? Confuse to looking for your selected book? Or your book seemed to be rare? Why so many problem for the book? But virtually any people feel that they enjoy intended for reading. Some people likes reading through, not only science book but novel and Robotics: A Very Short Introduction (Very Short Introductions) or perhaps others sources were given know-how for you. After you know how the truly great a book, you feel desire to read more and more. Science e-book was created for teacher or perhaps students especially. Those ebooks are helping them to put their knowledge. In different case, beside science e-book, any other book likes Robotics: A Very Short Introduction (Very Short Introductions) to make your spare time more colorful. Many types of book like here.

Anthony Martin:

Some individuals said that they feel bored stiff when they reading a reserve. They are directly felt this when they get a half regions of the book. You can choose typically the book Robotics: A Very Short Introduction (Very Short Introductions) to make your personal reading is interesting. Your own personal skill of reading ability is developing when you including reading. Try to choose easy book to make you enjoy to see it and mingle the opinion about book and studying especially. It is to be initial opinion for you to like to wide open a book and learn it. Beside that the guide Robotics: A Very Short Introduction (Very Short Introductions) can to be your brand-new friend when you're really feel alone and confuse in what must you're doing of that time.
