It provides an annotated resource guide to more than 30 organizations involved in economics education, with associated Internet links. It follows the flow of topics in a typical economics course. It addresses real-life topics that are ignored or glossed-over in traditional textbooks - economics and the environment, the distribution of income and wealth, discrimination, labor unions, globalization, the power of corporations, and more. It offers critical guidance for meeting all 20 Voluntary National Content Standards in economics, and also provides an overview of the political and intellectual history and contemporary state of economics education.
