La sociologie traditionnelle ne laisse qu'une place marginale aux « passions sociales », ces passions qui dépassent les jouissances individuelles pour s'incarner dans les collectivités. Pourtant, la passion, dans la variété de ses formes, compte parmi les éléments fondamentaux de la dynamique des sociétés. La politique, le religieux, la rue, entre autres, puisent en elle une partie de leurs motifs et de leur force motrice. Puissance de création et mobile d'action sociale, elle appartient au quotidien tout autant qu'à la fabrique de la société.

à travers les voies pluridisciplinaires de seize chercheurs en France et outre-atlantique, Passions sociales montre comment la question de la passion est développée dans les conduites sociales de notre monde contemporain, et comment le droit tente d'en canaliser les débordements.
