Gemworld: Book One Of Two (Star Trek: The Next Generation 58) John Vornholt

Dazzling to behold, Gemworld is one of the wonders of the Federation: an artificial world composed entirely of crystal, its atmosphere held in place by a sophisticated network of force fields. Home to a half dozen different sentient races, this singular world is a low-gravity playpen of mammoth spires, endless fractal staircases, gemstone arcs, and dazzling prisms, all carefully nurtured by the planet's many inhabitants -- until now.

Lieutenant Melora Pozlor, who previously served on *Deep Space Nine*TM, is currently stationed aboard the *Starship Enterprise*TM where an urgent telepathic summons alerts her to the danger threatening her homeworld.

The crystals that once sheltered her people, and several other alien species, are now growing at a vastly accelerated and uncontrollable rate, wreaking havoc throughout the planet. Captain Picard orders the *Enterprise* on a rescue mission to Gemworld, but they arrive to find a world in chaos -- and an unexpected menace that traps the crew of the *Enterprise* along with the fragile civilization they hoped to save!
