Heathenry is a comprehensive look at Northern Tradition religions in the modern world. Intended as more than just another “Asatru 101” book, Heathenry delves into ancient history, specialist heathen paths, and the deeper issues surrounding religious devotion. Consideration is given to obscure aspects of gods both well-known and those almost unknown. The nine noble virtues are discussed in depth, as a set of values relevant to the modern world. The runes are uniquely approached as a native system of heathen spiritual development. A summary and concordance of the Eddas is provided, with a comprehensive list of every god, every significant story, every reference to old world religious practices, and where in the Eddas each one can be found.
