These proceedings present technical papers selected from the 2012 International Conference on Intelligent Systems and Knowledge Engineering (ISKE 2012), held on December 15-17 in Beijing. The aim of this conference is to bring together experts from different fields of expertise to discuss the state-of-the-art in Intelligent Systems and Knowledge Engineering, and to present new findings and perspectives on future developments. The proceedings introduce current scientific and technical advances in the fields of artificial intelligence, machine learning, pattern recognition, data mining, knowledge engineering, information retrieval, information theory, knowledge-based systems, knowledge representation and reasoning, multi-agent systems, and natural-language processing, etc. Furthermore they include papers on new intelligent computing paradigms, which combine new computing methodologies, e.g., cloud computing, service computing and pervasive computing with traditional intelligent methods. By presenting new methodologies and practices, the proceedings will benefit both researchers and practitioners who want to utilize intelligent methods in their specific fields.

Dr. Fuchun Sun is a professor at the Department of Computer Science & Technology, Tsinghua University, China. Dr. Tianrui Li is a professor at the School of Information Science & Technology, Southwest Jiaotong University, Chengdu, China. Dr. Hongbo Li also works at the Department of Computer Science & Technology, Tsinghua University, China.

From reader reviews:

Dennis Fleenor:

Do you one of people who can't read pleasant if the sentence chained from the straightway, hold on guys this particular aren't like that. This Knowledge Engineering and Management: Proceedings of the Seventh International Conference on Intelligent Systems and Knowledge Engineering, Beijing, China, ... in Intelligent Systems and Computing) book is readable by means of you who hate the straight word style. You will find the information here are arrange for enjoyable studying experience without leaving even decrease the knowledge that want to give to you. The writer regarding Knowledge Engineering and Management: Proceedings of the Seventh International Conference on Intelligent Systems and Knowledge Engineering, Beijing, China, ... in Intelligent Systems and Computing) content conveys objective easily to understand by many individuals. The printed and e-book are not different in the information but it just different in the form of it. So , do you nonetheless thinking Knowledge Engineering and Management: Proceedings of the Seventh International Conference on Intelligent Systems and Knowledge Engineering, Beijing, China, ... in Intelligent Systems and Computing) is not loveable to be your top list reading book?

Alice Wilkerson:

Information is provisions for folks to get better life, information nowadays can get by anyone on everywhere. The information can be a expertise or any news even a huge concern. What people must be consider if those information which is from the former life are challenging to be find than now could be taking seriously which one would work to believe or which one often the resource are convinced. If you get the unstable resource then you get it as your main information we will see huge disadvantage for you. All of those possibilities will not happen inside you if you take Knowledge Engineering and Management: Proceedings of the Seventh International Conference on Intelligent Systems and Knowledge Engineering, Beijing, China, ... in Intelligent Systems and Computing) as the daily resource information.

Marian Buell:

Are you kind of stressful person, only have 10 or maybe 15 minute in your day to upgrading your mind skill or thinking skill perhaps analytical thinking? Then you are experiencing problem with the book when compared with can satisfy your short space of time to read it because all of this time you only find guide that need more time to be examine. Knowledge Engineering and Management: Proceedings of the Seventh International Conference on Intelligent Systems and Knowledge Engineering, Beijing, China, ... in Intelligent Systems and Computing) can be your answer mainly because it can be read by you actually who have those short time problems.

Sean Rusin:

A lot of reserve has printed but it is unique. You can get it by world wide web on social media. You can

choose the best book for you, science, witty, novel, or whatever simply by searching from it. It is identified as of book Knowledge Engineering and Management: Proceedings of the Seventh International Conference on Intelligent Systems and Knowledge Engineering, Beijing, China, ... in Intelligent Systems and Computing). You can add your knowledge by it. Without leaving behind the printed book, it may add your knowledge and make a person happier to read. It is most critical that, you must aware about e-book. It can bring you from one location to other place.
