Before You Build Your Aquaponic Farm: Read this 146 page book (with 156 footnotes) and learn about diy aquaponics from someone who's been involved with commercial aquaponics since 2010. This book breaks down all the key concepts needed to build a real diy aquaponics farm and focuses a lot on indoor farming: -backyards -basements -apartments -garages With a good design, you'll be able to grow as much food as you want without the headaches people typically associate with aquaponics. Join me on a journey through aquaponics from the perspective of someone who's spent 10,000 hours commercializing it. This book is a part a larger community focused on helping people design the right aquaponics farm for their needs.
