Irrigation in Africa in Figures: Aquastat Survey - 2005 (FAO Water Reports) Food and Agriculture Organization of the United Nations

The AQUASTAT programme was initiated with a view to presenting a comprehensive picture of water resources and irrigation in developing countries and providing systematic, up-to-date and reliable information on water for agriculture and development. This report presents the result of the most recent survey carried out in the 53 countries of Africa, and it analyses the changes that have occurred in the ten years since the first survey. A general summary presents a synopsis on water resources and development, irrigation and drainage in the region. The CD-ROM accompanying this report contains detailed profiles on the situation in each country. [System requirements to use the CD-ROM: PC with Intel Pentium® processor and Microsoft® Windows 95/98/2000/Me/NT/XP; 64 MB of RAM; 50 MB available on hard-disk space; Adobe Acrobat® Reader (included on the CD-ROM).]
