Pedestrian Safety in Sweden: Publication No. FHWA-RD-99-091 U.S. Department of Transportation- Federal Highway Administration

This report was one in a series of pedestrian safety synthesis reports prepared for the Federal Highway Administration (FHWA) to document pedestrian safety in other countries. This report is a review of recent pedestrian safety research in Sweden (in particular) with some attention to similar research in other Scandinavian countries. The report states that even in Sweden, where attention has long been paid to pedestrian and bicyclists concerns, even so, still too much traffic planning is addressed as if it were a vehicular issue only.
