Here are dinosaurs as you've never seen them before. Dinosaurs that are swift, stunning, scary and stupendous, presented in a lavish format with over seventy pages of full color illustrations and dozens in black and white. Using the latest paleontological research, *The Dinosaurs* presents a scientifically accurate and fantastic new look at the way dinosaurs lived: how they moved, ate, dueled, drank and even made love. From ten ton brontosaurus to thirty foot hadrosaurs, here is a story more fantastic than fantasy itself. Illustrated by William Stout, internationally acclaimed fantasy artist. Narrated by William Service, author of *Owl*, which Time Magazine called, "one of the most elegant and perceptive pieces of nature writing since T.H. White fell in love with a goshawk." Edited by Byron Preiss, co-author and producer of the bestselling Bantam trade paperback, *Dragonworld*. With an introduction and scientific commentary by Dr. Peter Dodson, respected paleontologist at the University of Pennsylvania.
