Not believing, but only experiencing, says Osho in this inspiring book, is a way of finding truth and meaning. While Nietzsche's declaration that "God is dead, therefore man is free" was an incredible step in understanding, he argues, it is in itself a negative solution and does not bring freedom. Simply removing God is not enough. In *The God Conspiracy*, Osho offers a solution beyond Nietzsche — meditation, a direct connection with existence itself. Here he shows how Zen and meditation allow us to find meaning and significance, creativity, receptivity, and a path to freedom. Zen has no God, but it has a tremendous power to transform our consciousness, to bring so much awareness that committing evil becomes inconceivable. This book argues persuasively that transformation cannot be imposed, but must come from one's innermost being and understanding.
