É veneno ou é remédio? Agrotóxicos, saúde e ambiente (Portuguese Edition) Frederico Peres, Josino Costa Moreira

A obra traz importante contribuição para o debate sobre a real necessidade do uso de agrotóxicos nos processos de produção agropecuários, enfatizando a importância de garantir a qualidade de vida das populações humanas que, todos os anos, expõem-se aos efeitos nocivos desses agentes, consumidos indiscriminadamente ao redor do mundo. Discutem-se aqui os principais desafios enfrentados pelo setor saúde e pelos órgãos ambientais, relacionados ao monitoramento de possíveis efeitos negativos à saúde humana e à qualidade ambiental. Apresentam-se também iniciativas bem-sucedidas de enfrentamento dessa questão, por parte de profissionais das mais diversas áreas do saber.
