BioCoder is a quarterly newsletter for DIYbio, synthetic bio, and anything related. You'll discover:

- Articles about interesting projects and experiments, such as the glowing plant
- Articles about tools, both those you buy and those you build
- Visits to DIYbio laboratories
- Profiles of key people in the community
- Announcements of events and other items of interest
- Safety pointers and tips about good laboratory practice
- Anything that's interesting or useful: you tell us!

And *BioCoder* is free (for the time being), unless you want a dead-tree version. We'd like *BioCoder* to become self supporting (maybe even profitable), but we'll worry about that after we've got a few issues under our belt.

If you'd like to contribute, send email to BioCoder@oreilly.com. Tell us what you'd like to do, and we'll get you started.
