Soil and Orchard Management K.K. Sharma & Nav Prem Singh

This book provides ample knowledge on orchard and soil management in general and cultivation technology of commercial fruits of North Indian plains in particular for the teachers, students and orchardists. It will be very beneficial for the research planners and research workers to formulate policies and projects. The recommendations made in this book for the cultivation of different fruits shall help in the production of high quality fruits with higher yields, for long time consistently and economically. Orchardling shall become a highly remunerative venture by following the practices presented in book in simple language. The recommend actions on nutrition, pest and disease management shall protect the soil health and environment from further deterioration. The information given for the preparation of various solutions e.g. NAA, IBA, Bordeaux paste, paint and Bordeaux mixture etc. shall be very useful for the field workers.
